

# Knowledge Organiser - Year 4- Spring 2

Living things and their habitats facts	
1.	Changes to an environment can be natural or caused by humans. Changes to an environment can have positive as well as negative effects.
2.	You can use classification keys to help group, identify and name a variety of living things.
3.	Plants and animals rely on the environment to give them everything they need. Therefore, when habitats change, it can be very dangerous to the plants and animals that live there.

## Living things and their habitats

- Movement
- Respiration
- Sensitivity
- Growth
- Reproduction
- Excretion
- Nutrition

## The Roman Empire

1.	Rome had seven kings before it became a republic
2.	The Circus Maximus, a huge stadium built for chariot races, could seat around 150,000 people
3.	The highest position in the Roman Republic was the consul. There were two consuls at the same time to make sure that one didn't become too powerful.
4.	The native language of Rome was Latin but they often spoke Greek as well

## Roman Empire
