

Knowledge Organiser - Year 1 - Autumn 2

Key Knowledge

1. There are 4 seasons throughout the year: Winter, Spring, Summer and Autumn
2. The hours of daylight changes throughout the seasons. We have our shortest daylight days in Winter and our longest in Summer.
3. Trees change throughout the 4 seasons, we can spot this in the changes to the leaves. Lots of blossom and buds in Spring, lush green leaves in Summer, orange yellow and brown leaves in Autumn, and frost with bare trees in Winter

Seasonal Changes

Wales

Northern Ireland

Winter

Winter is the coldest season of the year. Many trees have no leaves and animals are hibernating

Spring

The weather starts to get warmer. Lots of baby animals are born and new flowers blossom

Summer

This is the warmest month. Insects such as wasps and bees are around. The trees have lots of green leaves

Autumn

The weather starts to get cooler after summer. Leaves start to turn brown and fall from the trees
